Do you want to become a paramedic? Are you looking for a paramedic course that will stimulate your mind while increasing your skill levels at the same time?

Our program offers a relaxed but intense training experience for the paramedic student.

One eight hour day of classroom, combined with great clinical rotations, an on-site skills labs always available for student practice, realistic scenario based training, the TRAM cadaver lab, our three day rescue camp, and seasoned experienced instructors are what makes our program second to none.

The program director is a seasoned veteran of EMS and EMS education and has a history of high student pass rates on the National Registry Examinations.
